

Knowing Your Potential Is Fulfilling Your Vision

1. You will never be successful in your vision until you truly understand your potential.
2. Your potential is the hidden capacity, untapped power, unreleased energy that God has already placed inside you. It is all you could be but haven't become. Potential is who you really are, in accordance with your vision.
3. Your potential is determined by the assignment God gives you to do. Whatever you were born to do you are equipped to do.
4. God gives you the ability to fulfil your responsibility. When you discover your vision, you will also discover your ability. When the Lord gives a vision to someone, He is calling forth the ability, which He put into that person.
5. Your power and potential is at work in you. God puts His vision and His Spirit within you, and that is more than enough potential for your needs along the way.
6. The Lord will do "immeasurably" or "exceedingly" beyond all that you can ask for, now think about that, or imagine that. Your imagination is not big enough for all that He wants to do for you.
7. God gave you the gift of imagination to keep you from focusing only on your present conditions.
8. Whatever God calls for, He provides for. Whatever He requires, He enables you to do.
9. Your ability isn't dependent on what you perceive as your limitations. You are perfect for your purpose.
10. Your vision is given to you to draw out what's already inside you and to activate God's power in you.
11. The Lord appoints, anoints and distinguishes people. He doesn't like them to get lost in mediocrity. God gives you dreams to deliver you from mediocrity and to reveal your true self to the world.
12. The ability to accomplish your vision is manifested when you say yes to your dream and obey God.
